

Here's news from the US on an incredible invention newly available in the UK ...

“TV Ears Saved Our Marriage!”

– Darlene and Jack B., CA

Doctor recommended TV Ears® has helped thousands of people with mild, moderate, or severe hearing loss hear the television clearly without turning up the volume and now its better and more affordable than ever! Now with 2.3 MHz technology, you set your own TV Ears volume and tone while others listen to the television volume at their own level. Imagine watching television with your family again and hearing every word clearly...as thousands of our customers have said, “TV Ears has changed our lives!”

TV Ears Patented Technology includes a revolutionary noise reduction ear tip, not used in any other commercially available headset. The tip creates an acoustically sealed chamber with the ear that reduces outside noise and increases word discrimination so that television dialog is clear and understandable. Get the technology that has proven to help the most demanding customers. That's why TV Ears has earned the trust and confidence of audiologists nationwide as well as world renowned doctors.

From George Dennis, president and founder of TV Ears, Inc. “Driven by my personal understanding of the impact that hearing loss has on a family, I set out to create a product to relieve one of the most frustrating aspects of hearing loss... watching television. Put on TV Ears and enjoy television once again!”

#1 Dr. Recommended TV Headset “My wife and I have used TV Ears almost daily for the past two years and find them an invaluable help in our enjoyment of television—we would not be without them. As a retired otologist, I heartily recommend TV Ears to people with normal hearing as well as those with hearing loss.”
– Robert Forbes, M.D., California

Doctor Recommended TV Headset weighs only 1.6oz

Listen to TV at your own level without disturbing others with loud TV volume!

Rechargeable headset is lightweight and eliminates high cost of replacement batteries

Adjustable Volume and Tone

“Now my husband can have the volume as loud as he needs...and I can have the TV at my hearing level. “TV Ears” are so comfortable that Jack forgets he has them on! He can once again hear and understand the dialog.”

– Darlene & Jack B., CA

Risk Free Trial. TV Ears comes with a 30-day risk free trial. If you're not completely satisfied, return it for a full no quibble refund of the purchase price.
